

OKLAHOMA EPSCOR AUTHENTIC RESEARCH EXPERIENCE FOR TEACHERS

This summer, join the K20 Center and EPSCOR for an exciting Authentic Research Experience in interdisciplinary sciences!

Science teachers in grades 7-12 are invited to pack up and head out to one of two Oklahoma research sites for a four-day workshop. Participants will be stationed at one of two locations and engage in activities structured for each.

Integrated Grassland Observation Sites (iGOS), near El Reno: Land cover and land use changes or fluxes in ecosystems and atmosphere.

Kiamichi Forest Research Station, near Idabel: Ecological response of plants and animals to drought.

WHEN: June 9–June 12, 2014.
