## SBIR/STTR Workshop

**Get your share of \$2.5 billion for high risk innovative projects!**

**What:** This workshop equips you with the skills needed to write a winning SBIR/STTR proposal. Each year the federal Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) funding programs award approximately \$2.5 billion in funding to small, high-tech, innovative projects.

In December 2011, the SBIR/STTR program was reauthorized through 2017. This workshop provides a concise overview of the reauthorization implications for the SBIR/STTR program and discusses the implications for proposal strategy and preparation. Day one covers the Phase I proposal preparation process, emphasizing necessary new activities to reflect the authorization changes, and wraps up with a similar assessment for Phase II proposals. Day two focuses on the cost proposal. A major message in the reauthorization is that proposers and awardees need to understand government accounting and comply with its rules in their cost proposals and record keeping.

**Who Should Attend:** For-profit U.S. owned businesses having fewer than 500 employees and Oklahoma research institutions with an innovative technology and interest in commercialization and collaboration.

**When:** August 28 and 29, 2012, 8 a.m. to 4 p.m.

**Where:** Oral Roberts University, Tulsa – 7777 S. Lewis Ave., GC Building, 6th Floor in the Trustees Dining Room. Free parking available in the Mabee Center Parking Lot.

**Cost:** \$30 per day, per person. The Tulsa Metro Chamber is organizing registration. Please call Jessica Chaffee at 918-560-0294 to register.
