

WHERE THERE'S SMOKE, THERE'S FUEL

A symposium on the Thermochemical Conversion of Biomass to Fuels

Date and location: August 2, room102 Advanced Technology and Research Center

Sponsors

NSF Energy for Sustainability Program
S1041 Multi-State Research Committee
OSU Department of Biosystems and Agricultural Engineering
OSU Biobased Products and Energy Center

Eight nationally-known speakers from seven universities and a National Laboratory will speak on the latest research in the production of biofuels using thermochemical conversion in Stillwater, OK on the campus of Oklahoma State University.

Topics include

Gasification
Syngas fermentation
Pyrolysis
Catalytic conversion

Don't miss this opportunity to hear from some of the top researchers in the area of bioenergy.

To register and for more information

<http://bioenergycenter.okstate.edu/2011ConversionSymposium>

Cost of registration is \$30, lunch is included. Registration is due July 18.
